Built in 1979

Spectacular views of the Hague & evening sunsets! This gorgeous single-family home was custom-built & designed by Architect Brad Tazewell – built for ease of living & entertaining. Bright, open & light - floor-to-ceiling windows & an amazing open-air/two-story private atrium cast natural light throughout. The atrium space is a WOW - perfect for entertaining or create your own private sanctuary; plant a garden, create a yoga & meditation space; anything you can think of it can be! While this home has modern flair the warm light during the days along with the stunning warm cherry floors makes this home anything but cold. Parking is coveted in Ghent - this home has a private driveway space to the rear of the home. There is even green spa...
